unio

Hi there,
Thanks for purchasing from Unio Creative Solutions.

About The File:

Introducing "Synthesis Mockup Freebie" - a minimalist and fully customizable layered mockup kit, ideal to use for any web graphics design presentation.

Easily showcase your apps or mobile web-site with elegance and clarity using the commercial version of this minimalistic smartphone mockup. Additionally, we have included four beautiful individually selectable textures.

Get noticed with the right hue, the phone frame color is customizable as well as the background!

Freebie Specifications:

- Format: .psd

- Software Requirement: Photoshop CC or higher

- Additional Infos: layered document, editable content via smart layers

- Included: 1 mockup with 1 texture (Poster, Rough, Brick, Concrete)
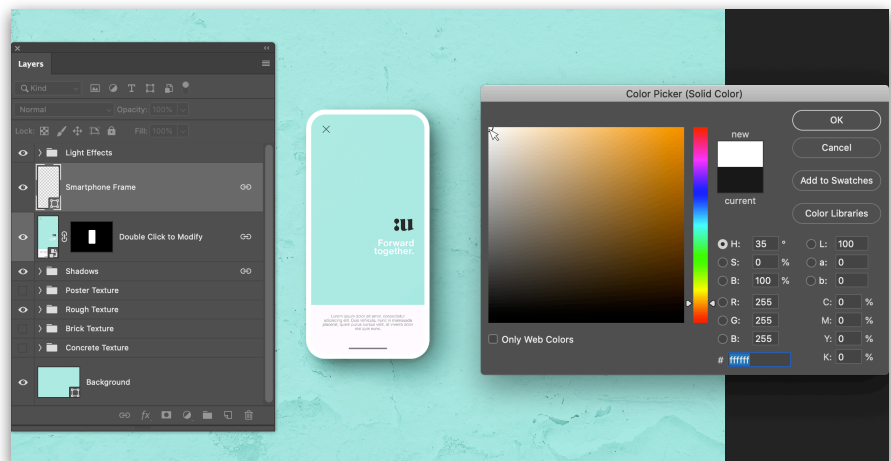

- Dimensions: 1800x1286px, 72dpi

How-to edit Files:

This product requires Adobe® Photoshop® CC or higher for any editing purpose.

Commercial Version, layers main view:

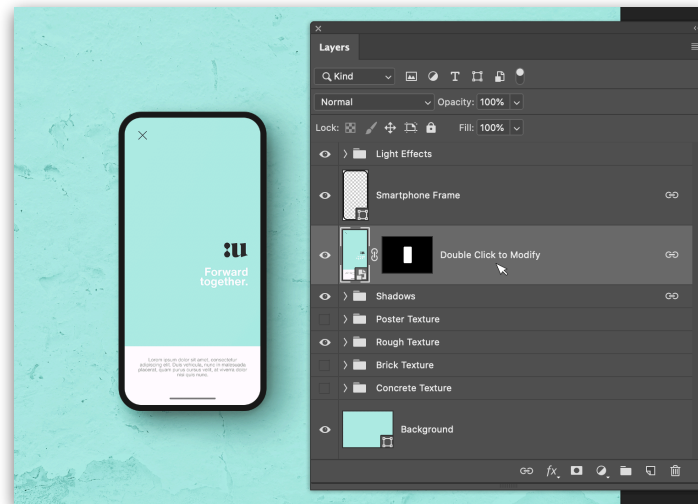

How to edit the smartphone frame color:

Double click on the layer named "Smartphone Frame" to start the color picker, then choose your preferred color.
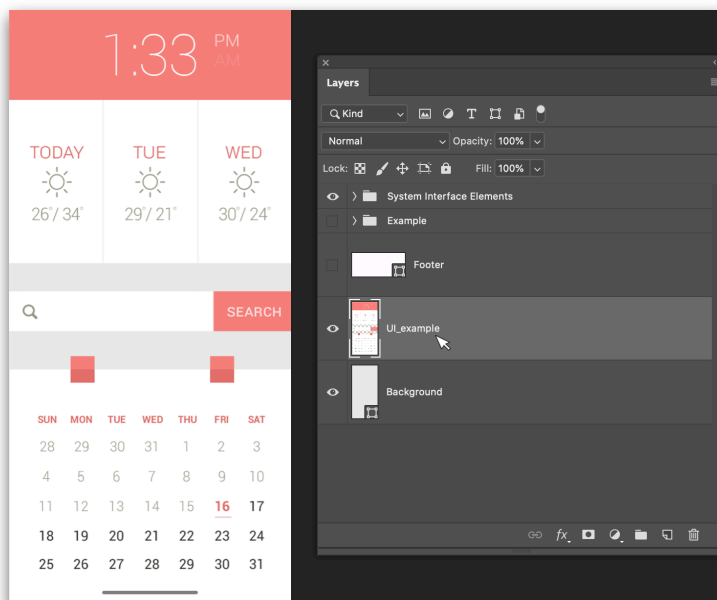

How to place your design via smart-layer:

Double-click on the layer named "Double Click to Modify".

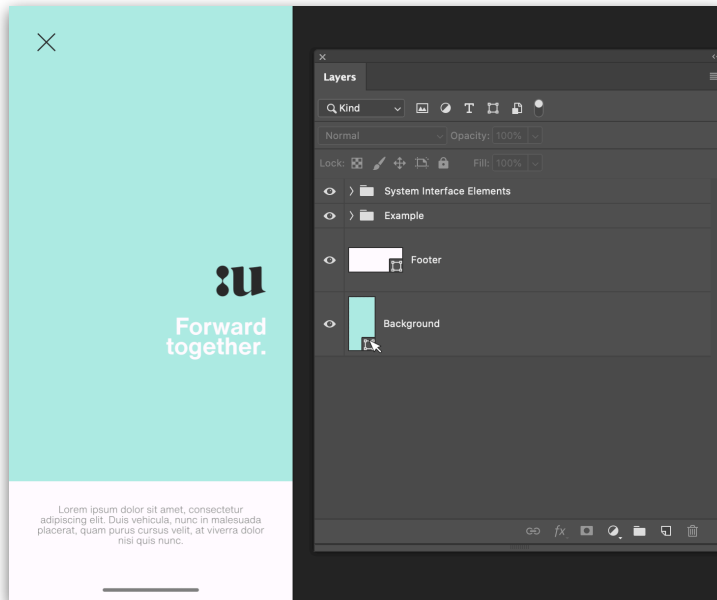

How to place your design:

Once opened the smart layer, you'll notice two groups and two editable layers, which are all editable. Deactivate the unneeded layers and import your design work.
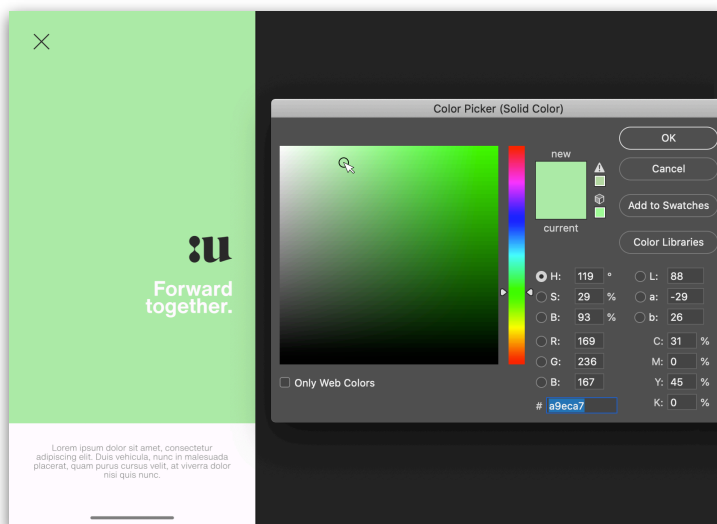

How to edit the pre-loaded template:

As said before, once opened the smart layer, you'll notice two groups and two editable layers, which are all editable. The "System Interface Elements" layer, as well as the "Example" layer is optional.

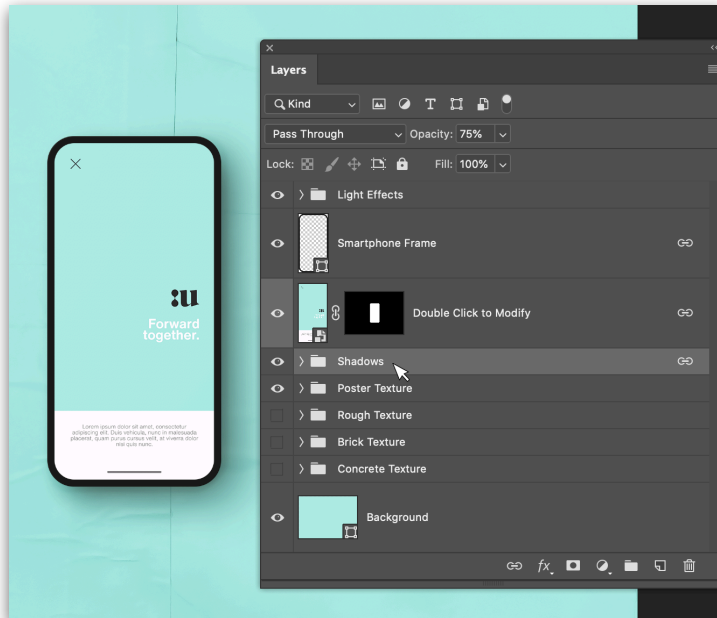

How to edit the background/footer color :

Double click on the layer named "Background" or "Footer" to start the color picker, then choose your preferred color.
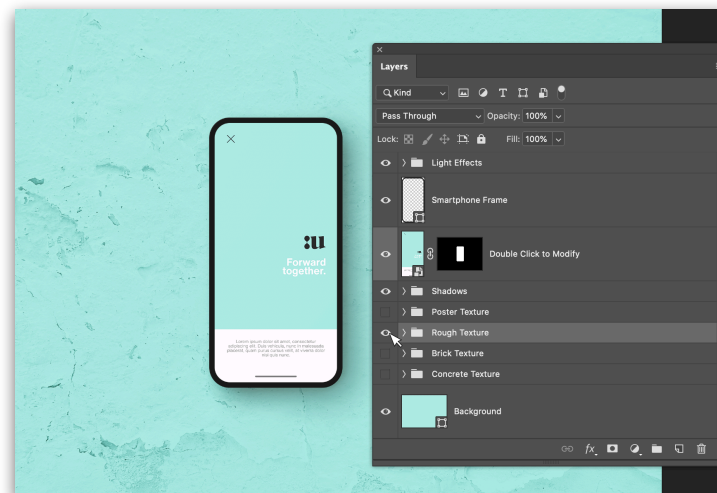

How to toggle On/Off light and shadow effects:

Deselect unwanted effects by ticking the required layer.

How to replace the pre-loaded texture and modify its color:

We have included four textures (Poster, Rough, Brick, Concrete) which are individually selectable.

The "Background" layer customizes the color of the texture itself. Simply double-click on that layer to start the color picker, then choose your preferred color.

Solid Color Smart Tip: deactivate all the textures and use your preferred color!
