*If you have any questions, please contact me at [dimaisakoff@gmail.com](mailto:dimaisakoff@gmail.com).*

# Install Google Fonts

*If these fonts are not installed on your machine, the fonts will be automatically corrected when you open the file for the first time. It is recommended to duplicate the original .psd file and work with this copy.*

## 1. Go to the archive folder:

PLANETS Social Media Pack/02\_Theme Files/Google Fonts

## 2. Install Google fonts:

**Khand** – <https://fonts.google.com/specimen/Khand>

**Playfair Display** – <https://fonts.google.com/specimen/Playfair+Display>

# Photos

*Please note, preview images are NOT included into Template!*

## Download links:

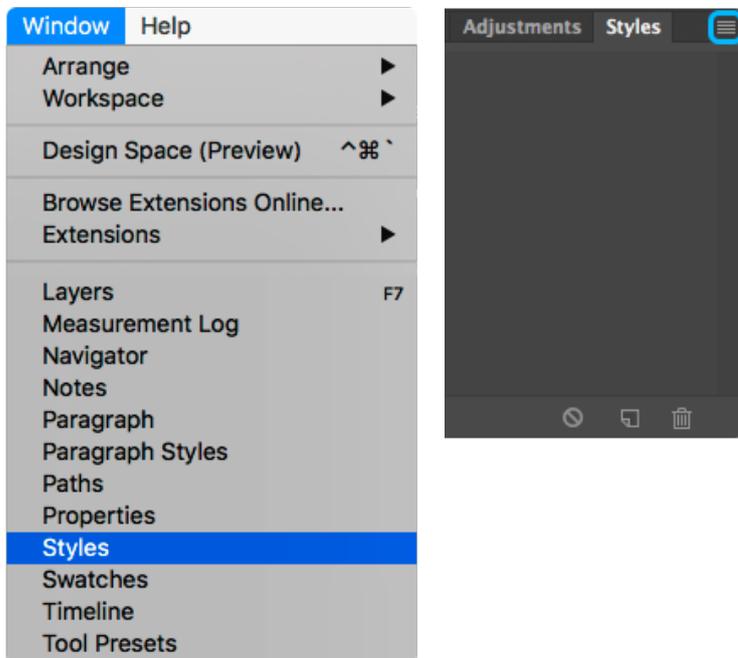

- <http://unsplash.com>

- <http://pexels.com>

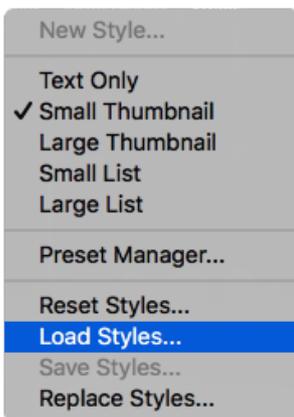

# Install special styles

Change colors of any object in one click

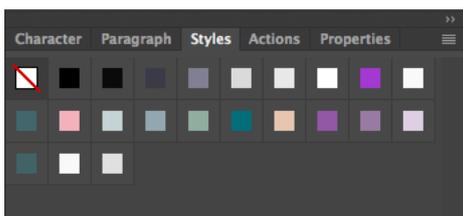

1. Open Photoshop and go to the Photoshop Styles

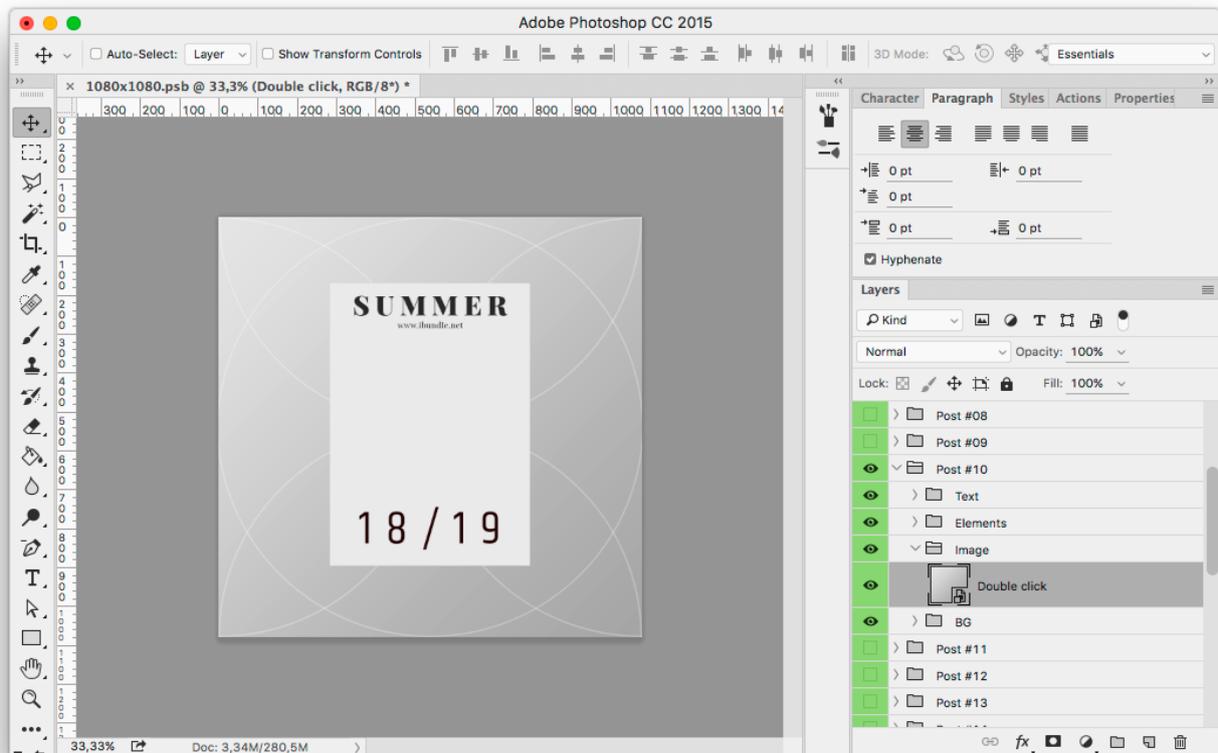

2. Click Style Menu and load 'styles.asl' from the 02\_Theme files folder.

3. It's ready. Styles are now loaded into Photoshop.

# Add your image

## How to edit Smart object

1. Open the needed .psd file
2. Choose the 'Image' folder on the Layers tab.
3. Double-click the Smart Object thumbnail and drag and drop your image.
4. Save this document to automatically reload your image
5. Close this document

That is all.

# How to edit design

## How to edit design

1. Open the needed .psd file
2. Choose any folder on the Layers tab.
3. Show or hide shapes to create your unique style.
4. If you use color styles, you can change colors of any object in one click.

It's ready.

### **Note:**

*Try out different elements to achieve your main goal.*

*This pack is designed for different purposes so that you could adjust it to any task.*

# Save your posts

1. To save, go to the File menu.
2. Select: Export -> Save for Web.
3. Select an existing folder or create a new one.
4. Click the Save button.

If you use the Complete file, all the 9 images will be saved automatically.

Ready! Enjoy!

# DI.
